

## PORTABLE WHEELCHAIR SCALES WITH HANDRAIL

### DETECTO MODELS 6560 / 6570

- Elegant, curved handrail for patient stability while weighing standing
- May be used for standing or wheelchair weighing (6570 includes seat)
- Column folds down for easy transport
- Integral wheels ease transport
- Ramps rest on floor for easier patient access

*DETECTO  
model 6570  
with fold-  
down seat*

*DETECTO model  
6560 (without  
fold-down seat)*

# SEATED, STANDING, AND WHEELCHAIR WEIGHING ALL IN ONE SCALE

The 6560 and 6570's dual-access ramps go all the way to the ground and allow maximum convenience for loading and unloading patients from either side of the scale. These unique ramps require only half the effort for a healthcare professional to roll a wheelchair-bound patient onto the scale than competitor's models.

- Clinical-grade accuracy to 0.2 lb / 0.1 kg
- Quick and easy mobility for transport or storage
- Up to 99 tares (optional) to store wheelchair weights for efficient patient weighing
- Hold/Release key to hold weight after leaving the scale for better patient care
- Interface with a PC or printer via serial, USB or optional Wi-Fi or wired Ethernet for EMR
- Patient ID barcode scanning sends 14-digit patient ID to indicator for EMR/EHR records

### Curved Handrail for Patient Stability

The 6560 and 6570's elegant curved handrail provides patient support while weighing standing on the platform.

### Single-Pass Weighing Saves Time

Enjoy the time-saving benefits of these scales by using the convenient pushbutton or keypad tare to remove the wheelchair weight.

### Fold-up Chair Seat

The 6570's chair seat easily folds up when not in use, allowing wheelchair weighing (not available on 6560).

The scale's columns fold down and latch securely for easy transport and vertical fold-up storage requiring minimal floor space.

# FOR USE IN PORTABLE MULTIPLE CLINICAL DEPARTMENTS

## Digital Multifunctional Medical Scales with Time-Saving and Patient Comfort Benefits

DETECTO's 6560 and 6570 portable wheelchair scales offer time-saving and patient comfort benefits. The scales features 1,000 lb / 450 kg capacity, optional Wi-Fi for EMR/EHR, vertical fold-up storage, two-way built-in ramps for accessibility from both sides, large 32 in x 36 in / 81 cm x 91 cm platform, clinical-grade accuracy to 0.2 lb / 0.1 kg, battery or AC power, and up to 99 tares (optional) to store wheelchair weights for efficient patient weighing. Enjoy the time-saving benefits of these scales by using the convenient pushbutton or keypad tare to remove the wheelchair weight. OIML EC class III models are available (see back page).

The scale's columns fold down and latch securely for easy transport and vertical fold-up storage requiring minimal floor space.

## EFFICIENT MEASUREMENT

The 6560 and 6570's MedVue® weight indicator is the clinical industry's most advanced, featuring EMR/EHR-ready serial, USB, and optional Wi-Fi connectivity, BMI calculation, yellow "quick keys" for basic weighing, and a multiline LCD display. The scale is powered by 6 C batteries (not included) or optional AC adapter.

## Easily-Collapsible Column

By sliding the release lever, you can easily fold down the columns for easy transport or vertical storage.

## Low-Profile, Thin Platform

The platform is only 2.2 inches/56 mm high for easy patient accessibility and comfort while weighing either standing or in a wheelchair.
